"18. Op het einde van de vijf jaren voor welke eenig licentie gegeven is, en indien de Minister tevreden is dat aan de condities daarin vervat behoorlijk is voldaan, zal hij laten uitreiken aan den licentiehouder een schenking op het land gehouden en bewoond door hem op erfpacht tenure, onderworpen aan de condities vermeld in Sectie V van Wet 15 van 1887, onderworpen aan betaling van vijftien jaarlijksche paaiementen, elk van het bedrag van een twintigste van de waarde van het land, tezamen met de waarde van de landmeting en andere onkosten die een eerste last zullen wezen op zulk land, en verzekerd worden door een verband ten gunste van het Gouvernement: Tenzij dat in geval het bewezen is geworden tot bevrediging van den Minister, die certificaten zal noodig hebben te dien effekte, dat de licentie houder na twee jaren van occupatie permanente verbeteringen gemaakt heeft op het land bewoond door hem onder zoodanige licentie ten minste van gelijke waarde van genoemd land, de Minister dan aan hem mag uitreiken een grondbrief op het land gehouden of bewoond door hem, onderworpen aan de betaling van zoo vele jaarlijksche paaiementen van een twintigste van de waarde van het land, tezamen met de waarde van de opmeting en andere onkosten, die zullen, tezamen met jaarlijksche paaiementen betaald door hem, in verband met de licentie van genoemde grond, de geheele waarde opmaken, en zulk jaarlijksche verschuldigde paaiementen zullen vast gezet worden door verband.

"19. Indien eenig paaiement niet betaald zal wezen binnen drie maanden van den datum op welk het schuldig en betaalbaar is, zal een additioneele som gelijkstaande aan een vierde deel daarvan bijgeteld worden als een boete, en zal, tezamen met het onbetaalde paaiement, inbaar wezen door gerechtede vervolging van het Gouvernement in eenig bevoegd Gerechtshof.

ALGEMEENE VOORWAARDEN.

1. Alle applicaties moeten worden ingezonden vóór Woensdag, 15 Juni 1910. Applicaties kunnen echter worden ingezonden na den genoemden datum voor zoodanige erven als niet zullen zijn gealloteerd, en deze applicaties zullen naderhand door den Raad worden overwogen.

2. Voor het doel van deze kennisgeving kan één lot zoodanig aantal erven bevatten die een totaal area van ten naastenbij 10 morgen besproeibaar land maken, en de onderverdeeling van erven in passende percelen zal geschieden door den Minister die op aanbeveling van den Land Raad, beslissen zal hoeveel land aan iederen applicant zal worden gealloteerd.

3. Applikanten die de uitzoeking van erven te hunnen behoefte wenschen over te laten aan den Raad, kunnen in hunne aanvragen uitlaten het bijzondere erf of erven

MUNICIPALITY OF THE PAARL.

NOTICE is hereby given in terms of section 146 of the "Municipal Act, 1882," that the Council of the Municipality of the Paarl proposes to borrow the sum of £14,000 sterling for the purpose of liquidating the principal moneys following, viz.:-

- | | |
|--|----------------|
| (a) Amounts presently owing by the Municipality to the South African Mutual Life Assurance Society ... | £12,875 |
| (b) Amount presently owing by the Municipality to Mr. A. C. de Villiers ... | 1,000 |
| (c) For the purpose of partially defraying the expense connected with the said borrowing, the sum of ... | 125 |
| Making ... | £14,000 |

The Council recently obtained the necessary sanction to the borrowing of the sum of £36,000 in connection with the improvement of the existing water supply of the Municipality,—which amount of £36,000 it is borrowing from the South African Mutual Life Assurance Society at the rate of four per cent. per annum,—the loan to be repaid at the rate of one per cent. per annum upon the capital amount, and as in the Council's view it is more advantageous for the Municipality to borrow at that rate and on that basis than at the rate and on the basis whereon said sums of £12,875 and £1,000 were borrowed, the Council proposes to repay these two amounts of £12,875 and £1,000, and for that purpose borrow from the said Society on the same terms as apply to said £36,000 the further sum of £14,000.

By Order of the Council of the Municipality of the Paarl,
G. J. JOUBERT,
Town Clerk.

REDDINGSTOESTELLEN OP KOOPVAARDIJ
SCHEPEN.

DE volgende kennisgeving uitgegeven door den Raad van Handel tezamen met een extract uit een Rapport van het Koopvaardij Raadgevend Comité aangaande toestellen voor het werpen van reddingslijnen voor gebruik op schepen ingeval van schipbreuk of ongeluk op zee wordt ter algemeene kennisname gepubliceerd.

J. W. SAUER,
Commissaris van Openbare Werken.

KENNISGEVING AAN EIGENAARS VAN SCHEPEN.
KAPITEINS EN OFFICIEREN.

TOESTELLEN VOOR HET WERPEN VAN LIJNEN.

Het volgende verkorte uittreksel van het Rapport van het Koopvaardijvaart Raadgevend Comité, dat onlangs onderzoek deed in de kwestie van toestellen voor het werken van reddingslijnen om verbinding te maken tusschen een schip en de kust of tusschen schip en schip, wordt bekend gemaakt ter inlichting van scheepseigenaars, kapiteins en officieren. Het volledige rapport is gepubliceerd als een Parlementair dokument (Cd. 4552) en kan worden verkregen, hetzij direkt of door tussenkomst van een boekverkooper, van de heeren Wyman & Zonen, Fetter Lane,

Londen, E.C.; de heeren Oliver en Boyd, Tweeddale Court Edinburg; en de heer E. Possonby, 116, Crafston Street, Dublin, prijs, 4d.

Uit het Rapport blijkt dat een doelmatig instrument om reddingslijnen uit te werpen, dat van dienst kan zijn bij het redden van levens, verkregen kan worden tegen betrekkelijk geringe kosten; en alhoewel de Handels Raad geen machten heeft om het gebruik verplichtend te maken, bevelen zij de aanbevelingen van het Comité aan de aandacht van belanghebbenden aan.

Het is van belang dat met zoodanig werktuig van tijd tot tijd wordt oefening gehouden, zoodat de personen aan boord weten hoe er mede te werk te gaan.

KORTE INHOUD VAN RAPPORT.

1. De toestellen voor het werpen van reddingslijnen onderzocht en beproefd door het Comité bestonden uit geweren, pijlen, vliegers, boeien, enz., en het Comité kwam tot het besluit dat het zoo te zeggen onmogelijk is voor een toestel om even toepasselijk en dienstdoend te zijn in alle gevallen, maar dat eenig toestel zich aan boord bevindende aan de meeste noodzakelijke gevallen zal voldoen die in werkelijkheid voorkomen. Verder dat zoodanig toestel goedkoop moet zijn, eenvoudig van maaksel en gemakkelijk kan worden gehanteerd en gebruikt.

2. Lettende op deze vereischten, was het Comité van meening dat het meest geschikte soort van werktuig om reddingslijnen te werpen, gevonden wordt in een soort van vuurpijl toestel; maar zij voegt er bij, dat er behalve het reddingslijn werptoestel, voorziening moet worden gemaakt om een sterk touw aan land te sturen met een behoort vastgemaakte zakboei daaraan zittend, en dat het gehele toestel klaar voor gebruik moet worden gehouden in een gemakkelijk te bereiken deel van het schip.

3. In het geval van kleine schepen, raad het Comité aan dat verbinding in vele gevallen kan worden tot stand gebracht op een afstand van 200 yards door middel van een 2lb. of 4lb. vuurpijl, met 500 yards sterk touw daaraan vast ter dikte van een gewone kabeljauw of makreel lijn. Een sterker touw kan dan worden geknoopt aan het einde van deze lijn, en een gewone reddingsboei of een reddingsboei met broek worden vastgemaakt aan dit sterker touw.

UITTREKSEL VAN RAPPORT VAN HET KOOPVAARDIJ RAAD-GEVEND COMITÉ AAN DEN HANDELS RAAD AANGAANDE REDDINGSLIJN WERPTOESTELLEN VOOR GEBRUIK OP SCHEPEN IN GEVAL VAN SCHIPBREUK OF ONGELUK OP ZEE.

Ofschoon wij het niet wenschelijk of noodig achten dat wij een bepaald toestel zouden uitkiezen, dat naar onze mening, het best aan deze voorwaarden voldoet, veroorloven wij ons toch de volgende opmerkingen ter beste te geven om de algemeene kwestie van de doelmatigheid van de verschillende soorten van toestellen.

Het ligt voor de hand dat toestellen als vliegers, ballons, boeien wat onzekers zijn in hun werking, want zij zijn afhankelijk of van de wind, het getij of van stroomingen om voor hunne voorbewegings kracht; en in aanmerking nemende de betrekkelijk weinige soorten van gevallen waarin zij doelmatig zouden blijken, denken wij dat toestellen van dezen aard slechts kunnen beschouwd worden als een toevoegsel tot een of ander andere soort van reddingslijn werptoestel.

Om onderscheid te maken tusschen de twee overige soorten van toestellen—geweren en vuurpijlen—is eenigszins moeilijk. Veel kan er ten voordeele van beide gezegd worden, en het is mogelijk dat een geschikt toestel voor het gewenschte doel in beide soorten kan gevonden worden. Gewoonlijk kan men met een geweer beter richten dan met een vuurpijl, en het projectiel wordt niet zoo gemakkelijk door de wind uit zijn richting gewaaid als een vuurpijl. Daarentegen is een geweer veel duurder dan een vuurpijl, is niet zoo gemakkelijk te hanteeren, en tenzij het in den vorm van een schouder geweer is, kan het niet van een eind van het schip naar het andere gedragen worden met dezelfde gemakelijkheid. In het geval van een schouder geweer moet de dracht noodzakelijker wijze wat beperkt zijn. Verder, daar de projectiel uit een geweer komt met zijn maximum snelheid, is er veel meer kans dat de lijn breekt dan in het geval van een vuurpijl welke langzamerhand haar snelheid vermeerderd als zij wegvliegt.

Het is waarschijnlijk dat een grotere tref afstand gemakkelijker kan worden verkregen met een geweer dan met een vuurpijl, maar in aanmerking nemende dat het bijna mogelijk is levens te redden op een grooter afstand dan 300 yards, is dit voordeel van betrekkelijk weinig nut. Bovendien, daar de baan van een vuurpijl zichtbaar is voor personen aan land, is er minder gevaar van een vuurpijl op hen af te schieten dan een projectiel uit een geweer.

Daarom nemende alle feiten in overweging, en bedenkende de omstandigheden die zich voordoen kunnen wij niet anders denken dan dat de geschikste soort van toestel voor algemeen gebruik zal worden gevonden in een soort van vuurpijl toestel. Bij het te kennen geven van deze mening wenschen wij echter niet schouder of andere geweren voor latere overweging uit te sluiten, of te zeggen dat zij niet nuttig kunnen zijn om te worden aangenomen op de grotere soort schepen, of in verband met reddings werk.

Met betrekking tot de juiste vorm van vuurpijl toestel achten wij het onwenschelijk eenige juiste regel aan te geven, maar wij veroorloven ons de aandacht te vestigen op de draagbare vormen van vuurpijl toestel welke aan ons zijn voorgelegd, als aanwijzende de soort van toestel welke waarschijnlijk voor algemeen gebruik het verdienstelijkste is. Het is belangrijk op te merken dat een voorname lijn van Liverpool stoombooten reeds is uitgerust met draagbare vuurpijl toestel. Wij erkennen dat wanneer verbinding is gemaakt met de kust het reddingswerk alleen is begonnen; en daarom moet behalve het lijnwerp toestel, overziening gemaakt worden om een sterk touw aan land te zenden met een behoorlijk vastgemaakt broekboei, en het geheele toestel moet voor gebruik klaar gehouden worden in een gemakkelijk toegankelijk deel van het schip.

In het geval van kleine schepen die waarschijnlijk dicht aan de kust kunnen komen, is het alleen noodig een 2 lb. of 4 lb. vuurpijl te hebben met 500 yards sterke lijn, ongeveer de dikte van een gewone kabeljauw of makreel lijn. Met deze uitrusting kon verbinding gemaakt worden in de meeste gevallen op 200 yards, en dan kan een gewone reddingsboei of een reddingsboei met broek eraan vast kan vastgemaakt worden aan een sterke lijn.

Voor echter eenige soort toestel wordt geleverd aan schepen, behoort het te worden goedgekeurd door den Handels Raad, en welke soort toestel ook aan boord wordt mede genomen, beschouwen wij dat het noodig is dat waar doelt, de Hoofdingenieurs van den Handels Raad moeten toezien dat het gebruik van het toestel grondig wordt begrepen door eenige officieren en matrozen.

GENERAL RULES.

1. The Railway Administrations are not common carriers in respect of explosives, dangerous acids, corrosive chemicals, or any other goods which in their judgment are of an explosive, inflammable or dangerous nature or liable to spontaneous combustion, and are free to make such conditions for conveyance of the same as may be considered necessary; nor are the Railway Administrations subject to any risk of loading, stowage or unloading, nor answerable for loss or damage, actual or consequential; nor for discrepancy in weight; nor for the condition of article so carried; nor for any consequence arising from over-carriage, detention or delay in, or in relation to, the carriage or delivery thereof.

2. The Administrations will not, under any conditions, collect or deliver explosives.

3. The Administrations reserve the right to appoint fixed days for the acceptance, and special places for the loading, unloading, or transshipping of Explosives.

4. No explosives or highly dangerous goods shall be loaded or unloaded on the Administrations' premises except between the hours of sunrise and sunset, and then only by permission of the Station Master.

5. The fact that the article is properly packed and labelled will not be taken as an excuse for a breach of this Regulation.

6. At least 24 hours' notice must be given of the proposed despatch of explosives by the consignor to the Officer in Charge at the forwarding station who will give information as to the hour of departure of the train, and the time which will be allowed for loading—due regard being given to the quantity of explosives to be loaded.

9. Every consignment of Explosives shall, throughout its journey, be accompanied by a Permit issued by the necessary authority in the Colony or Colonies through which such consignment shall pass, and such Permit or Permits shall be sufficient guarantee to the Railway Administrations that the consignment can safely be transported by Rail, and that the cases in which the explosives are packed are sufficiently substantial, and that the interior packing arrangements comply with the Govern-

ment Regulations. The Permits can be obtained from and must be signed by the undermentioned:

CAPE COLONY.—Colonial Secretary, Parliament Street, Cape Town.

I
We agree that it is a condition of the transport of the said goods that the Railway Administrations do not undertake or incur the liability or duties of common Carriers in respect of the said goods, and that the Railway Administrations will incur no risk or responsibility in respect of the loading, stowage, or unloading, nor in respect of any loss or damage arising in or by reason of the loading, stowage, or unloading thereof, nor for over-carriage of the goods, nor for detention or delay in, or relation to, the conveyance or delivery thereof.

10. Explosives must not be accepted for transit to a railway siding where there is no one on duty unless a special arrangement has previously been made through the Chief or District Traffic officer. [This does not apply to private sidings detailed in the Official Tariff Books of the various Administrations.]

11. The Railway Administrations do not guarantee to despatch explosives or other dangerous goods at any particular time or by any particular train, nor do they allow consignments to remain on Railway premises beyond a time notified by the Officer in charge of the forwarding or receiving station to the consignor or consignee.

Explosives and other highly dangerous goods will not be allowed to remain on railway premises longer than is absolutely necessary, and they must be kept well away from places to which the public have access.

12. The Officer in Charge is responsible for seeing that members of his staff (as well as senders, consignees or their representatives loading or unloading on railway premises) deputed to deal with explosives and other dangerous goods are fully acquainted with these Regulations; and the Officer supervising such operations shall be held personally responsible that every precaution is taken in the work of handling Explosives and Dangerous Goods which when once begun shall be proceeded with until completed. No person, unless actually engaged in the work, shall be allowed access to the trucks.

13. Except as otherwise provided herein, no explosive shall be conveyed by rail, or allowed to stand on sidings, unless in covered and closed goods trucks.

14. Every truck before being used for the conveyance of Explosives, must be carefully swept out and, if necessary, washed and thoroughly dried. All exposed iron or steel in such truck must be either covered with wood or wrapped round with cloth, leather, or other suitable material.

15. Trucks conveying Explosives may be loaded to their full registered carrying capacity, but in no case must exceed it.

16. All cases or casks of Explosives shall be loaded in a way which shall prevent shifting or rolling. To this end cases of blasting cartridges may only be stacked in full horizontal layers not more than 5 feet 6 inches high, and where there is any space between the cases and the sides of the truck, the former shall be properly shored

up against the latter by means of wood or in some other approved manner. Barrels or casks must not be placed on end, but must be laid on their bilge parallel to the length of the truck, and efficiently scotched up with wood, cloth, or other suitable material. Explosives must be loaded and secured in such manner as will prevent their falling out when the truck doors are opened. Casks and packages containing explosives must, as far as practicable, be passed from hand to hand and not dragged or rolled unless hides, cloth, or sheets have been previously laid down on the platform or ground over which they have to be dragged or rolled; they must not be thrown or dropped down, but carefully deposited and stowed. The doors of trucks containing explosives must be closed and properly secured as soon as the loading of each truck is completed.

17. Consignments of Explosives or dangerous, volatile or inflammable liquids shall not be loaded or unloaded in the vicinity of a fire or uncovered light, and hand or other lamps must not be taken inside a vehicle containing this class of goods.

18. All persons engaged in handling Explosives shall exercise care and avoid any act which causes shock or friction to the contents of the cases. Such persons shall not wear boots or shoes with steel or iron nails, heels, or tips of any kind, nor have about their persons any pipe or light or any lucifer or other match, or other means of striking a light, and while the work is proceeding shall abstain from smoking.

19. During wet weather the utmost care must be exercised in the handling of Explosives in order that no danger may result from the access of water to the contents of the packages.

20. No person or persons (except escorts in possession of special permission) shall be allowed to travel in or on a truck or other vehicle conveying Explosives or other dangerous goods; and no person or persons, except police in charge of prisoners and specie escorts, shall come or cause to be conveyed loaded fire-arms in any railway train.

21. The Administrations may detain or stop the further handling of packages containing Explosives or other dangerous goods which appear defective; and if in the opinion of the officer observing such defect it would be unsafe to allow the further handling or transport of the defective article, he must arrange for its safe storage until the defect has been put right or otherwise dealt with, communicating where necessary with the Chief Inspector of Explosives and the Consignor, due regard being paid to Rule 25.

22. When an accident by fire or explosion occurs to a consignment of explosives or dangerous goods, notice must—in addition to the usual Departmental advice—be immediately telegraphed to the Chief Inspector of Explosives of the Colony in which the accident occurred (in the case of the Orange River Colony to the Assistant Superintendent, Maintenance, Bloemfontein), and to the consignor.

The telegraphic addresses of the Government Explosive officials are given above.

23. Inspectors of Explosives are permitted to carry by passenger or mixed train, samples of explosives in such quantities as are reasonably necessary for the purposes of analysis, tests and experiments.

24. No person except a Government Inspector of Explosives or some person duly authorised by him, whether acting on behalf of the Customs Authorities or otherwise shall open, on or within the precincts of railway premises any package containing explosives.

25. Any Government Inspector of Explosives may inspect consignments of Explosives and the trucks or train on which they are being conveyed provided that, in so doing, he does not unduly impede the traffic. The Railway Staff shall give such Inspector all information and assistance required.

26. Where delay occurs in delivery, by default of the consignee or otherwise, the Station Master shall take precautions to place the trucks containing the explosives in as safe a place as possible and immediately communicate by wire with the Chief Inspector of Explosives (Assistant Superintendent, Maintenance, Orange River Colony), and also with the consignor, informing them of the action taken, and await instructions; the Chief Inspector of Explosives (Assistant Superintendent, Maintenance, Orange River Colony) will then give instructions to the Station Master regarding disposal or, if necessary, cause the explosive to be destroyed under proper supervision.

- (a) By Special Explosives' Train.—Maximum tonnage of explosives, including weight of cases, not to exceed 120 tons.

Note.—Load of train may be completed to Time Table load with ordinary through traffic of a non-dangerous nature.

Special conditions obtain in regard to marshalling, for particulars of which see Rule 29.

- (b) By Ordinary Goods Train.—Maximum tonnage of explosives, including weight of cases, not to exceed 90 tons.

Special conditions obtain in regard to marshalling, for particulars of which see Rule 29.

When a goods train is not available, explosives may be conveyed by mixed train, but the quantity to be so carried must be governed by the following restrictions:—

- (c) By Mixed Train.—Maximum tonnage of Explosives, including weights of cases, not to exceed 10 tons, which must be contained in one truck only. Consignments of less than 10 tons to be dealt with as follows:—

- (1) 1 to 10 cases of explosives when enclosed singly in metal cases or metal-lined cases (approved of by a Government Inspector of Explosives) may be conveyed by a Mixed Train in the same truck with other goods of a non-dangerous nature.
- (2) Consignments exceeding 10 but not exceeding 20 cases of explosives must, if intended for conveyance in a truck with ordinary goods, be stowed in a special wooden receptacle sufficiently large to accommodate all the cases, failing which an Explosives' truck must be exclusively used.

The ordinary goods should, if practicable, be for the same destination as the explosives, and in no instance must the transshipping stations exceed two.

- (3) Consignments in excess of 20 cases must invariably be loaded in an explosives' truck containing no other traffic.

Special conditions obtain in regard to marshalling, for particulars of which see Rules 29 and 30.

- (d) By Passenger Train.—Small consignments of inflammable, corrosive, poisonous, and other such substances (excluding explosives) not exceeding 10 lbs. in weight may be accepted for conveyance by passenger train if contained in glass bottles, tins, or jars so packed in tins or boxes that there shall be no leakage of contents.

Small quantities of Picric Acid, not exceeding 4 oz., may also be sent by passenger train if securely packed and contained in two receptacles, viz., an inner one and an outer one.

28. Except as provided in Rule 27 (c), passengers must not, unless by permission from the Head or District Traffic Officer or of a District Transportation Officer, be allowed to travel by a goods train conveying explosives.

29. Trucks containing explosives conveyed by either special explosives' train, ordinary goods train or mixed train shall be placed as near the centre of the train as possible, and in all cases at least the equivalent of three short trucks must intervene between the engine and the truck or trucks containing explosives, a similar precaution being observed when a banking engine is used, the brake van in the latter case to count as one truck.

30. When explosives are conveyed by mixed train the vehicle in which they are loaded must be separated by at least two short trucks from coaches, etc., containing passengers.

31. Trucks containing dynamite, gunpowder, blasting cartridges or similar explosive should be placed as far as possible from trucks conveyed by the same train containing any of the dangerous goods enumerated in the Appendix hereto, or forage. They must not

be placed next to the trucks loaded with heavy machinery nor with projecting timber, rails, telegraph poles, iron, etc., as in the event of a collision or other accident they may be crushed, rammed or pierced, and the dynamite caused to explode.

32. Explosives must not be conveyed in the same truck as inflammable or combustible materials, acids, corrosive and dangerous chemicals, or uncovered iron and steel.

33. Cases containing Blasting Cartridges of different natures, or safety fuse, may be loaded in the same truck or vehicle, but not with Detonators or Ammunition.

34. Gunpowder may be conveyed in the same truck as safety fuse, but not with other explosive.

35. Subject to special permission being granted, detonators not exceeding two whole cases (i.e., 25,000 detonators) may be conveyed by mixed train or by goods train carrying small quantities of explosives, but they must be loaded either (a) in the guard's van, (b) in a truck containing non-dangerous articles, or (c) in a truck by themselves; and at least one empty truck or a truck containing non-dangerous articles must intervene between the van or truck containing the detonators and the truck or trucks containing other explosives. *Consignments of detonators in excess of two cases must not be conveyed by a train carrying other classes of explosives.*

36. Receptacles containing Petrol or other highly inflammable liquids which show signs of leakage, or cases containing explosives or other dangerous goods which appear to be damaged or defective, shall not be accepted for conveyance by rail nor be retained upon the station premises.

37. Safety Fuse, Percussion Caps and Safety Cartridges, are not subject to any restrictions so far as the kind of train by which they may be conveyed is concerned. Ordinary Sporting Cartridges not exceeding 10,000 rounds may be conveyed by passenger or mixed trains.

38. Special trains conveying explosives shall, as far as possible, travel right through to destination without delay, all unnecessary detention in inhabited places and at passenger stations being avoided. The Officer in Charge at the forwarding station shall immediately notify all engine depot stations situate between his station and the place of destination that a consignment of explosives is en route. The last depot station must notify the destination station, the train by which forwarded and the name of consignee or consignees. The consignors shall also, as soon as the consignment is despatched, advise the consignee by telegram of the hour of the departure.

39. When explosives or other dangerous goods are despatched by rail, the attention of the guard in charge of the train must be specially directed by a responsible Officer to the trucks or vehicles containing them; the guard will duly inform his driver, and when the train is handed over to another guard or official, draw his attention and that of the Officer in Charge of the station thereto. Members of the staff engaged in shunting should be cautioned when explosives or other dangerous goods are on the train.

40. The shunting, marshalling and coupling of trucks containing, and trains conveying, explosives must be effected with the greatest caution. Vehicles containing explosives must on no account be detached from a train until the latter has come to a dead stop, i.e., they must not be single, double or flyshunted; after being put off, the trucks must be properly secured by hand-brake and spraggs, and, when practicable, left in an isolated position well away from other traffic.

41. Guards must frequently examine en route all trucks containing explosives or other dangerous goods on their trains, and in the event of the axles showing signs of heating, the trucks must be detached and their contents transhipped with every care and despatch, and sent forward in other trucks. The transshipping station must notify the destination station of the transfer, giving the Nos. of the trucks from which the explosives were taken and in which sent forward.

42. Engine-drivers and Firemen are prohibited from drawing or raking fires in the vicinity of trucks containing explosives, and are cautioned against bringing their trains to a stand over such rakings, or their engines opposite to trucks containing dangerous traffic.

NOTE.—The attention of the Staff is directed to the fact that any person contravening the Explosives Regulations will be liable, on conviction, to a heavy fine or imprisonment, or to both such penalties.

5. MINISTERIAL DIVISION OF COMMISSIONER OF PUBLIC WORKS.

MISCELLANEOUS INFORMATION.

*CLASSIFICATION OF EXPLOSIVES.

For the purposes of the "Explosives Act No. 4 of 1887," Explosives shall be divided into seven classes, as follows:—

Class 1	Gunpowder.
Class 2	Nitrate Mixture.
Class 3	Nitro-Compound.
Class 4	Chlorate Mixture.
Class 5	Fulminate.
Class 6	Ammunition.
Class 7	Firework.

And when an Explosive falls within the description of more than one class, it shall be deemed to belong exclusively to the latest of the classes within the description of which it falls.

CLASS 1.—GUNPOWDER CLASS.

The term "Gunpowder" means exclusively gunpowder ordinarily so called.

CLASS 2.—NITRATE-MIXTURE CLASS.

The term "Nitrate-mixture" means any preparation, other than gunpowder ordinarily so called, formed by the mechanical mixture of a nitrate with any form of carbon, or with any carbonaceous substance not possessed of explosive properties, whether sulphur be or be not added to such preparation, and whether such preparation be or be not mechanically mixed with any other non-explosive substance.

The nitrate-mixture class comprises such Explosives as:—

Ammonal, Chilworth Special Powder, Dahmenite, Westfalite, Pembrite,

and any preparation coming within the above definition.

CLASS 3.—NITRO-COMPOUND CLASS.

The term "Nitro-compound" means any chemical compound possessed of explosive properties, or capable of combining with metals to form an explosive compound, which is produced by the chemical action of nitric acid (whether mixed or not with sulphuric acid), or of a nitrate mixed with sulphuric acid, upon any carbonaceous substance, whether such compound is mechanically mixed with other substances or not.

The nitro-compound class has two divisions.

Division 1 comprises such Explosives as:—

Cordite,
Dynamite,
Blasting gelatine,

and any chemical compound or mechanically mixed preparation which consists either wholly or partly of nitro glycerine or of some other liquid nitro-compound.

Division 2 comprises such Explosives as:—

Nitro-cotton, Roburite,
Nitro Lignin, Picric Acid and Picrates,
Coopall's powder, Tonite,

and any nitro-compound, as before defined, which is not comprised in the first division.

CLASS 4.—CHLORATE-MIXTURE CLASS.

The term "Chlorate-mixture" means any Explosive containing a chlorate.

The chlorate-mixture class has two divisions.

Division 1 comprises any chlorate preparation which consists partly of nitro-glycerine or of some other liquid nitro-compound.

Division 2 comprises such Explosives as:—

Cheddite,
Nobel's Explosive No. 256,

and any other chlorite-mixture, as before defined, which is not comprised in the first division.

CLASS 5.—FULMINATE CLASS.

The term "Fulminate" means any chemical compound or mechanical mixture, whether included in the foregoing

(*The above classification is inserted for the information of the C.G.R. employees in terms of the Cape Explosives Act, No. 4 of 1887.)

classes or not, which, from its great susceptibility to detonation, is suitable for employment in percussion caps or any other appliances for developing detonation, or which, from its extreme sensibility to explosion, and from its great instability (that is to say, readiness to undergo decomposition from very slight exciting causes) is especially dangerous.

This class consists of two divisions.

Division 1 comprises such compounds as the fulminates of silver and of mercury, and preparations of these substances, such as are used in percussion caps; and any preparation consisting of a mixture of chlorate with phosphorus, or certain descriptions of phosphorus compounds, with or without the addition of carbonaceous matter, and any preparation consisting of a mixture of a chlorate with sulphur, or with a sulphuret, with or without carbonaceous matter.

Division 2 comprises such substances as the chloride and the iodide of nitrogen, fulminating gold and silver, diazobenzol, and the nitrate of diazobenzol.

CLASS 6.—AMMUNITION CLASS.

The term "ammunition" means an Explosive of any of the foregoing classes when enclosed in any case or contrivance, or otherwise adapted or prepared so as to form a cartridge or charge for small arms, cannon, or any other weapon, or for blasting, or to form any safety or other fuse for blasting or for shells, or to form any tube for firing Explosives, or to form a percussion cap, a detonator, a fog signal, a shell, a torpedo, a war rocket, or other contrivance other than firework.

The term "percussion cap" does not include a detonator.

The term "detonator" means a capsule or case which is of such strength and construction, and contains an Explosive of the fulminate-explosive class in such quantity that the explosion of one capsule or case will communicate the explosion to other like capsules or cases.

The term "safety fuse" means a fuse for blasting which burns and does not explode, and which does not contain its own means of ignition, and which is of such strength and construction and contains an explosive in such quantity that the burning of such fuse will not communicate laterally with other like fuses.

The ammunition class has three divisions.

Division 1 comprises exclusively:—

Safety cartridges.
Safety fuses for blasting.
Safety instantaneous fuses.
Fog signals.
Percussion caps.

Division 2 comprises any ammunition as before defined which does not contain its own means of ignition, and is not included in Division 1, such as:—

Cartridges for small arms, which are not safety cartridges.

Cartridges and charges for cannon, shells, mines, blasting, or other like purposes.

Shells and torpedoes containing any explosives.

Fuses for blasting which are not safety fuses.

Fuses for shells.

Tubes for firing explosives.

War rockets.

Electric primers.

Instantaneous fuses.

which do not contain their own means of ignition.

Division 3 comprises any ammunition as before defined which contains its own means of ignition, and is not included in Division 1, such as:—

Detonators.

Cartridges for small arms, which are not safety cartridges.

Fuses for blasting, which are not safety fuses.

Fuses for shells.

Tubes for firing explosives,

which do not contain their own means of ignition.

By ammunition containing its own means of ignition is meant ammunition having an arrangement, whether attached to it or forming part of it, which is adapted to explode or fire the same by friction or percussion.

CLASS 7.—FIREWORK CLASS.

The term "firework" comprises firework composition and manufactured fireworks.

Division 1.—The term "firework composition" means any chemical compound or mechanically mixed preparation of an explosive or inflammable nature which is used

for the purpose is not included also any star or to the proviso

Division 2.— means any explosive firework composition is enclosed in manufactured rocket (other than Chinese fire). adapted for the pyrotechnic sign

for the purpose of making manufactured fireworks, and is not included in the former classes of explosives, and also any star and any coloured fire composition, subject to the proviso hereinafter set forth.

Division 2.—The term "manufactured firework" means any explosive of the foregoing classes, and any firework composition when such explosive or composition is enclosed in any case or contrivance, or is otherwise manufactured so as to form a squib, cracker, serpent, rocket (other than a war rocket), maroon, lance, wheel, Chinese fire, Roman candle, or other article specially adapted for the production of pyrotechnic effects or pyrotechnic signals or sound signals.

Provided that a substantially constructed and hermetically closed metal case, containing not more than 1 lb. of coloured fire composition, of such nature as not to be liable to spontaneous ignition, shall be deemed to be a "manufactured firework."

The acceptance of explosives and other dangerous goods which have not been authorised by the South African Governments is forbidden until special permission, together with conditions of packing, etc., has been sought and obtained.

Each Lot will be put up at the upset price fixed, and the highest bidder who shall have offered not less than such upset price shall be declared the purchaser, and every such purchaser shall have the option of paying either the whole or a part of the purchase money on the day of sale: Provided

- (i) That if no payment be made on the day of sale, one-tenth of the purchase price shall be paid at six and one-tenth at twelve months from the day of sale.
- (ii) That if less than one-tenth of the purchase price be paid on the day of sale, the balance of such one-tenth shall be paid at the expiration of six months and the remaining one-tenth at the expiration of twelve months from the day of sale.
- (iii) That if the amount paid on the day of sale be one-tenth or any sum between one-tenth and one-fifth of the purchase price, the balance of one-fifth of the purchase price shall be paid at the expiration of twelve months from the day of sale.
- (iv) In cases where the purchase money is less than twenty-five pounds the whole amount shall be paid in cash or in three equal annual instalments from the day of sale.

Interest on the instalments above mentioned shall be paid at the rate of four per centum per annum; and the payment of the instalments, together with the interest thereon, shall be secured on the day of sale by two good and sufficient sureties to the satisfaction of the Resident Magistrate, which sureties will bind themselves in regard to such payment as sureties *in solidum* and co-principal debtors, renouncing the exceptions of excussion and division.

If the purchaser or his sureties fail or are unable to make the necessary payment of purchase money as above, within the stipulated time, it shall be competent for the Government to cancel the sale, and all payments already made in respect of such sale shall be forfeited to the Government.

The expenses of survey, etc., on each Lot, and of the title deed (viz., 12s. 3d.) shall be paid to the Resident Magistrate or other duly authorised person in that behalf on the day of sale.

The purchaser shall be bound to pass a mortgage bond bearing interest at the rate of four per centum per annum, in favour of the Government for four-fifths of the purchase price, unless he shall have paid on the day of sale more than one-fifth thereof, in which case the amount of the bond shall be for the balance of the purchase price, the purchaser having the right to pay off the bond, or any portion thereof, not being less than fifty pounds at any time.

If the purchaser be desirous of holding the balance of the purchase money on mortgage, as above, he will be required to pass the Bond within thirteen (13) calendar months from the day of sale, failing which a fine of one shilling will be imposed for every day allowed to pass beyond it, up to eighteen months from the date of sale, after which, should such failure still continue, the balance of the purchase money, with interest thereon, and the amount of fine, if any so imposed, shall forthwith become due and payable and shall be recoverable in any competent court of law without further notice, and if not paid within one month after the date of judgment, the sale shall become null and void and payments already made shall be forfeited to the Government.

All persons introducing equines into the Transvaal must produce certificates for their animals signed by a qualified Veterinary Surgeon holding the Diploma of the Royal College of Veterinary Surgeons, England, stating that the animals are free from disease, and that they have been tested with mallein and all have reacted in a normal manner. These certificates will be collected by the Stock Inspector at the Port of Entry. If any horse is presented for admission without a certificate it will either be tested with mallein by the Stock Inspector, and allowed to enter after the Inspector is satisfied that the animal is free from disease, or it may be allowed to proceed to its destination and tested there, whichever course is most convenient for the Department.

EXCEPTIONS.

Racehorses in training will be allowed to proceed to their destination upon the owner giving an undertaking to report their arrival to the Government Veterinary Surgeon of the District, and to submit the imported animals to the mallein test if the Government Veterinary Surgeon considers this necessary. All other equines will be detained and tested unless the owner has previously made other arrangements with the Department.

NETHERLANDS BANK OF SOUTH AFRICA.

(NEDERLANDSCHE BANK VOOR ZUID-AFRIKA.)

REPORT for the Year 1909, submitted to the Ordinary General Meeting of Shareholders on the 11th May, 1910.

THE Directors beg to submit to the Shareholders the Balance Sheet and Profit and Loss Account for the year 1909.

The Accounts have been drawn up in accordance with the resolutions passed at the Extraordinary General Meeting of Shareholders held on 14th April, 1910. Consequently the net profit for the year will have to be included in the amount, being used in writing down some of the Assets of the Bank, so as to amply provide for any shortfalls, which may be expected from the realisation of real estate and other property in South Africa.

A comparison of the figures in the Accounts with those of a year ago will otherwise disclose a much improved position. The net result of the year's working was £11,961 12s. as against £6,752 7s. 7d. for the previous year, which is satisfactory. No doubt this increase may be attributed to a generally improving condition of affairs in South Africa, of which the Directors are glad to be able to say there are several indications. Another satisfactory item is the increase in Deposit Accounts, both fixed and current, being proof of the confidence placed in the Bank, and showing that the condition of its customers is improving. The proportion of Cash and Cash assets to all liabilities, as shown in the Balance Sheet, is again very favorable.

Having regard to the signs of gradual improvement in the general prosperity of the country and with the view to the measures, recently adopted by Shareholders, which have placed the Bank's affairs on a thoroughly sound footing, the Directors are of opinion that better times may now be confidently expected for the Bank and its Shareholders.

MR. J. E. HENNY, who retired from the Board of Directors under the Articles of Association has been re-elected at your General Meeting of 13th April, 1909. MR. W. H. DE BEAUFORT now retires by rotation, and being eligible, offers himself for re-election.

MR. K. F. VAN DEN BERG, who was appointed Managing Director for a period of five years at your General Meeting of 29th June, 1905, submits himself for reappointment.

In order to fill the vacancy created in 1908 by the death of DR. J. B. LOMAN, you will be asked to appoint a second Managing Director. DR. D. C. ENDT, who offers himself for this appointment, being at present engaged in our South African business, your appointment will have to be made effective as from the date of his return to Amsterdam.

K. F. VAN DEN BERG,
Managing Director.

A. VRUGTMAN,
Chief Agent for the Cape Colony.

The demand during the preceding month was 263.

The unfilled vacancies were as follows:—Blacksmiths, boot finishers, lasters and machinist, cabinet-makers, cardboard box makers, carriage painters and smiths, linotype operators, tailors (first-class coat hands), upholsterers, woodworking machinists and turners. It might be said that workers in the furniture trade were required at Durban, Johannesburg, and Port Elizabeth, in addition to Cape Town.

Upwards of 130 Cape coloured men and natives were in demand by contractors for railway construction work in the Colony, and 50 of the former class were in requisition for railway and shipping work in German South-West Africa, the rate of pay being from £3 per mensem with food and shelter.

The Annual Competitive Examination in English and Arithmetic for the entry of apprentices to the trades of Shipwright, Plumber, Engine Fitter and Boilermaker at H.M. Naval Dockyard, Simonstown, will be held on Wednesday, 25th May, 1910.

After undergoing a medical examination, the successful candidates will be allowed to choose their trades according to the position in which they stand on the examination list.

Apprentices are required to attend the Dockyard Evening School three evenings a week, where they receive free instruction suitable to their trades.

The following is a statement furnished by the Master Builders Association showing the present rates of wages agreed to be paid to artisans in the various South African centres:—

The number of men sent to definite work by the Labour Bureau was 107, made up as follows:—Building trades, 7; engineering trades, 7; factory workers, 3; clerks, canvassers, salesmen, etc., 2; servants (indoor and outdoor), 15; overseers, warders and attendants, 4; farm hands, 8; labourers, 61.

112 men were sent to work during the preceding month.

14 women registered their names for employment, and 6 of this number were provided with work as monthly servants and charwomen.

There is a fair demand for girls as servants and factory workers (cigarette makers and packers, tailoresses and sheet metal workers), and the preference of applicants for the latter occupations is, without doubt, one of the main causes of the growing scarcity of domestics.

The total number of applicants for employment (including renewals) received during the period under report was 285, of which the following is an analysis:—

2. COLONIAL SECRETARY'S MINISTERIAL DIVISION.

268 applications were received during the preceding month.

The few artisans and handicraftsmen registering themselves for employment shows very clearly the improvement which has occurred in the building trade and other industries. It is remarkable that only 9 Europeans registered their names as willing to undertake work as unskilled labourers. On the other hand there is no diminution in the number of Cape Coloured men making use of the facilities afforded by the Bureau, the demand at present being in excess of the supply.

INDUSTRIES

Shopfitting.—This trade continued in a dull condition during the period under report, but so many contracts are about to be put in hand that a shortage of skilled labour is anticipated in the near future. *Stone-dressing*.—Busy. No artisans of this trade were registered as unemployed during April. Six freestone cutters are required by a local firm. *Plumbing*.—A considerable improvement is reported, and hands are likely to be scarce in the near future. *Engineering*.—Very fair. Repairs to shipping have caused the employment of many extra hands, and good boilermakers are still unobtainable. *Sheet-metal working*.—Very busy. A number of additional hands, including girls, have obtained work, and vacancies for two first-class male workers are reported. *Tobacco and cigarette manufacture*.—Busy. There is a fair demand for European girls, age 15 to 20, as packers and box makers. The wage paid to learners is 7s. 6d. per week. *Tanning*.—The improvement noted in March was continued. A number of enquiries were received for frock and dress coat hands. *Paintmaking*.—Only a few persons are as yet employed, but steady progress is being made, and an encouraging number of enquiries have been received. *Cardboard box-making*.—Fairly busy. *Coach and wagon building*.—Slowly improving. Particulars of vacancies for coachsmiths and a bodymaker may be obtained on application at the Bureau. *Joinery*.—Very busy. All factories appear to be working at full pressure in consequence of the increase in the number of orders received from the other South African Colonies and German South West Africa. Two woodworking machinists are required. *Furniture and cabinet-making*.—Very busy. There was a demand for skilled workers from all South African industrial centres. *Fibro-plaster and cement working*. A slight improvement may be recorded in this industry, as a few additional persons were engaged. *Tanning*. All hands were fully employed, and at some of the factories visited a number of hands were working overtime. *Boot-making*.—Very busy. The supply of skilled workers is at present quite inadequate. *Saddlery and harness-making*.—Very busy. There is a brisk demand for competent men which cannot be met from local sources. *Bag and portmanteau-making*.—Very busy. Particulars of unfilled vacancies may be obtained on application at the Bureau. *Sail and tent-making*.—Busy. Several hands were temporarily engaged. *Brushmaking*.—Brisk. New machinery has been installed, and the number of employees again increased. *Milling*.—Very quiet. *Jam-making*.—Dull. *Confectionery*.—Very slightly improved. *Pastery*.—Brisk. There appears to be no lack of work for first-class compositors, and all machinists and lithographers are still busily engaged. Linotype operators, especially those accustomed to both English and Dutch manuscripts are still in great demand. *Bookbinding*.—Busy. *Leather pipe and solder-making*.—Very fair. Large consignments of pipes were despatched to various Municipalities.

The present rates of pay are as follows:—Carpenters, masons and bricklayers, 1s. 3d.; plumbers, 1s. 6d.; and painters, 1s. per hour, 48 hours per week; blacksmiths, 9s. per diem, 50 hours per week. *Montagu.*—The building trade is dull. *Mossel Bay.*—The retail trade is very quiet, and there is a surplus of labourers. *Namaqualand.*—85 native labourers from the Steinkopf Mission Station left for work on the railways in German South-West Africa. HIS Excellency the Officer Administering the Government, with the advice of the Executive Council, has been pleased to approve of the subjoined Additional Regulations framed by the Municipal Council of Woodstock under the provisions of Act No. 45 of 1882.

NOEL JANISCH,

Under Colonial Secretary.

MUNICIPALITY OF WOODSTOCK.

ADDITIONAL REGULATIONS.

(Framed under Act No. 45 of 1882.)

Regarding the Speed of Motor Cars.

1. Every motor car shall when in use between sunset and sunrise carry and display two lamps affixed thereto and so placed as to exhibit a white light within a reasonable distance in the direction towards which the motor car is proceeding, or is intended to proceed, and to exhibit a red light so visible in the reverse direction, and such lamps shall be affixed on each side of such motor car in front of or adjacent to the front wheels thereof, and shall be in such a position as to be free from all obstruction to the light.

2. The driver of every motor car shall, when necessary, by sounding a bell or other instrument, given audible and sufficient warning of the approach or position of such motor car.

3. No person shall cause or permit a motor car to be used on any street or shall drive or have charge of a motor car when so used unless the conditions hereinafter set forth shall be satisfied:—

(1) The motor car if it exceeds in weight, unladen, five hundred and sixty pounds, shall be capable of being so worked that it may travel either forwards or backwards.

(2) The motor car shall not exceed six and a half feet in width, such width to be measured between its extreme projecting points.

4. The tyre of each wheel of a motor car shall be smooth, and shall have two independent brakes in good working order and of such efficiency that the application of either to such motor car shall cause two of its wheels on the same axle to be so held that the wheels shall be effectually prevented from revolving, or shall have the same effect in stopping the motor car as if such wheels were so held: Provided that in the case of a bicycle motor car this regulation shall apply as if, instead of two wheels on the same axle, one wheel was therein referred to.

5. Every motor car shall be so constructed as to admit of being at all times under such control as not to cause undue interference with the passenger or other traffic on any street.

6. Every motor car and all the fittings thereof shall be in such a condition as not to cause, or to be likely to cause, danger to any person on the motor car, or on any street.

7. There shall be in charge of every motor car when used in any street a person competent to control and direct its use and movement.

8. No person shall drive a motor car at any speed greater than is reasonable and proper, having regard to the traffic on the street, or so as to endanger the life or limb of any person, or to the common danger of passengers; and no person under any circumstances shall drive a motor car at a greater speed than twelve miles an hour in any part of the Municipality, nor at a greater speed than 10 miles an hour between Gympie Street and Salt River Road, on the Upper Main or Victoria Road, and between Gympie Street and Malta Road on the Lower Main Road: Provided always that prominent notice boards warning motorists of the fact shall be erected and maintained by the Council at points along the roads at which the ten miles per hour speed limit is in operation.

9. No person shall cause a motor car to travel backwards for a greater distance or time than may be requisite for the purposes of safety.

10. No person shall negligently or wilfully cause any hurt or damage to any person, carriage, horse or cattle, or to any goods conveyed in any carriage on any street, or when on a motor car, be in such a position that he cannot have control over the same or quit the motor car without having taken due precautions against its being started in his absence, or allow a motor car or any vehicle drawn thereby to stand on such street so as to cause any unnecessary obstruction thereof.

11. No person shall negligently or wilfully prevent, hinder, or interrupt the free passage of any person, carriage, horse or cattle on any street, and every person shall keep a motor car and any vehicle drawn thereby on the left or near side of the road for the purpose of allowing such passage.

12. Any person in charge of a motor car shall, on the request of any police constable, or any person having charge of a restive horse, or on any such constable or person putting up his hand as a signal for that purpose, cause the motor car to stop and remain stationary as long as may be reasonably necessary.

13. Nothing in these regulations shall authorise any person to use a motor car which may be so constructed or used as to be a public nuisance at common law. Nothing herein contained shall affect the right of any person to recover damages for any injury he may sustain in consequence of the use of a motor car.

14. Every person who shall offend against any of the foregoing regulations shall, unless a penalty is there provided for the offence, be liable for every such offence to a penalty not exceeding five pounds (£5) sterling, and to the payment of all expenses incurred by the Council in consequence of the breach of any such regulation, or default of payment any such person shall be liable to imprisonment for three calendar months, with or without hard labour.

WHEREAS diamonds have been discovered on a certain portion of the Commonage of Douglas, in the Division of Herbert, and whereas it has been shewn that diamonds exist in the said locality in payable quantities:

Now, therefore, under and by virtue of the powers and authorities vested in me by Section 27 of Act No. 11 of 1899, intituled an "Act to Consolidate and Amend the Laws relating to the Prospecting and Mining for Precious Stones," I do hereby declare the aforesaid land to be an Alluvial Digging within the meaning of the said Act under the name of "Douglas Kopjes."

And I further proclaim, declare and make known:—

1. That the area of the said digging shall be as described in the subjoined Schedule, or such as may from time to time be defined by the Inspector of Claims, Barkly West.
2. That the claims in the said diggings shall be allotted under the provisions of Section 30, as applied by Section 101 of the said Act and Sections 90 and 102 of the Act aforesaid.
3. That the size of each claim in the said digging shall be thirty (30) feet by sixty (60) feet.

UNDER and by virtue of the powers and authorities vested in me by Sections 14 and 40 of Act No. 16 of 1907, and Section 5 of Act No. 27 of 1907, I do, moreover, hereby proclaim, declare and make known that prospecting for Precious and Base Minerals and Precious Stones is prohibited on the remainder of the Douglas Commonage, lying Southward of the Vaal River, such prohibition to commence from the date of the promulgation of this my Proclamation in the *Government Gazette*.

Colonial Secretary's Office,
Cape of Good Hope.
26th May, 1910.

THE following telegraphic despatch has been received by H.E. the Administrator from the Right Hon. the Secretary of State for the Colonies under date the 23rd May, 1910, and is published for general information by His Majesty's command.

NOEL JANISCH,
Under Colonial Secretary.

Begins: "To my people beyond the seas. The innumerable messages of kindness from my loyal subjects beyond the seas have deeply touched my heart and have assured me that I have in full measure their sympathy in the great trial which has befallen me and them, that my sorrow is their sorrow, that I share a common loss. The happiness of all his people throughout his Dominions was dear to the heart of my beloved father. For them he lived and worked, in their service he died, and I cannot doubt that they will hold his name in grateful remembrance. I am now called to follow in his footsteps and carry on the work which prospered in his hands. As a sailor I have been brought into touch with the oversea Dominions of the Crown, and I have personally realised the affectionate loyalty which holds together many lands and diverse peoples in one glorious fellowship. Nine years ago I travelled through the Empire accompanied by my dear wife, and had the late King lived we should together, at his expressed wish, have visited South Africa in the coming Autumn to open the first Parliament of the South African Union, the latest and greatest evidence of that peace and harmony which my father ever loved to promote. It will be my earnest endeavour to uphold

constitutional government and to safeguard in all their fullness the liberties which are enjoyed throughout my Dominions, and under the good guidance of the Ruler of all men, I will maintain on the foundations of freedom, justice and peace, the great heritage of the United British Empire." Ends.

6. Bij ontvangst van het Rapport van den Schoolbezoek Beambte (als hij wordt aangesteld) zal het de plicht worden van den School Raad om de bepalingen uit te voeren van genoemde Sectie 65 van Wet No. 35 van 1905.

7. Alle Comité's van Publieke Scholen moeten gevallen rapporteeren van niet-schoolbezoek zoodra zij gebeuren, aan de School Raden, en de School Raden moeten met zoodanige rapporten handelen op dezelfde manier als met de rapporten van den Schoolbezoek Beambte (indien hij wordt aangesteld).

8. In alle gevallen waar waarschuwingen zijn gegeven door de Raden, moet de aandacht worden gevestigd op Secties 77, 78, 79 en 80 van genoemde Wet, welke voorziening maakt voor het innen van boeten wegens overtreding der Wet.

REGULATION RELATING TO THE CONSTRUCTION OF PAIL CLOSETS.

(Framed under Section 9, Clause 2 (b), of Act 23 of 1897.)

60. Every owner or occupier of a dwelling or public building within the meaning of the second Section of "The Public Health Amendment Act, 1897," shall provide such dwelling or public building, to the satisfaction of the Council, with closet accommodation sufficient for the use of any persons living in or frequenting such dwelling or public building.

Every such closet shall :

- (a) Be situate at least six feet distant from any dwelling or public building and so as to give easy access for the removal of the pail from such closet and from the premises to which such closet may belong without carrying such pail or nightsoil through any dwelling or public building.
 - (b) Be of not less than the following internal dimensions, namely : Depth from front to back, five feet ; breadth, three feet six inches ; height from floor to ceiling at the ceiling's lowest part, six feet six inches.
 - (c) Be properly and substantially constructed with impermeable walls and roof, and the floor composed of cement, concrete, flags, hard bricks, tiles, asphalt, or other impermeable, smooth, and easily-cleaned material, and laid in every part at least six inches above the level of the surface of the ground adjoining such closet, and having an even fall in front of the seat and towards the entrance door of at least one in twelve, and an even fall beneath the seat and towards the door provided for the removal of the pail of at least one in twelve. The level of the floor of the space beneath the seat shall not, except in the case provided for under clause (g) hereof, be higher at any part than the level of the floor in front of the seat. The space beneath the seat shall not be connected with any external drain or with any pipe other than a ventilating pipe into the open air.
 - (d) Be provided with sufficient means of ventilation as near to the roof as possible and with sufficient means of lighting.
 - (e) Have an entrance door which shall not open directly on to or in view of any public street or thoroughfare, public building or place open to the public.
 - (f) Be provided with a properly-constructed seat and riser of such height as to leave a space of not more than one inch between the under-surface of the seat and the top or rim of the pail, and the under-surface of the seat shall have affixed thereto proper blocks or cleats to keep the pail always in proper position exactly under the aperture in the seat. Such aperture shall be at least one inch less in every diameter than the corresponding diameter of the top of the pail.
 - (g) Be provided with a proper external door to the space beneath the seat for the removal and replacement of the pail, but such door shall not open directly on to any public street or thoroughfare. Whenever it shall not be possible, in the opinion of the Council, to construct such external door, then the seat shall be constructed so as to give easy access from the inside of the closet for the removal and replacement of the pail, and in this case the floor beneath the seat shall be continuous with the floor in front of the seat, and shall have a continuous fall of at least one in twelve towards the entrance door of the closet.
 - (h) Have in connection therewith two nightsoil pails, so that at all times one such pail shall be in place in the closet while the other is in course of being emptied and cleaned. Every such pail shall have a sufficient capacity not exceeding two cubic feet, and shall, according as the Council shall determine, be either of a pattern and material to be approved of by the Council, or be supplied by the Council at a charge to the owner or occupier of not exceeding ten shillings per pail.
 - (i) Be at all times provided by the occupier of the premises with a suitable receptacle containing sufficient ashes or dry earth and having convenient means for applying the same to the contents of the pail after each use.
- Provided that in the case of existing closets which do not comply with all the requirements of this regulation the Council may by special resolution relax any of such requirements as it may deem fit, provided that the

Council shall be satisfied that no nuisance or danger to health will result therefrom, and provided further that the Council may at any time rescind any such resolution, and thereupon all the requirements of this regulation shall apply.

REGULATIONS RELATING TO THE REMOVAL AND DISPOSAL OF NIGHTSOIL.

61. The Council shall carry out the removal and disposal of nightsoil either by its own employees or by a contractor, and it shall not be lawful for any person other than a person duly authorised thereto by the Council to carry out any removal or disposal of nightsoil.

62. Such removal shall be carried out in respect of every occupied dwelling or public building at least once in each week, or more often where deemed necessary by the Council. No removal shall be carried out except between the hours of 10 p.m. and 5 a.m.

63. The occupier or person in charge of any occupied dwelling or public building as defined by the second section of "The Public Health Amendment Act, 1897," shall arrange for the free access to every closet on such premises by any person carrying out the removal of nightsoil on behalf of the Council, or any person duly authorised by the Council, between the said hours and on such occasions as the Council or such authorised person may require.

The Council shall set apart and maintain a place or places whereat nightsoil shall be properly buried or otherwise properly disposed of, and shall provide or cause to be provided a place with suitable means for the proper and satisfactory cleansing and disinfection of all nightsoil pails after having been emptied, and every such place for the disposal of nightsoil or for the cleansing and disinfection of the pails or for the keeping of empty pails, and every nightsoil cart, and every other matter or thing connected with the removal of nightsoil, shall at all times be kept so as not to be a nuisance, danger to health, or cause of public offence.

67. Whenever the Council shall become aware of any person on any premises suffering from enteric fever, or believed to be suffering therefrom or from any other infectious disease, the infection of which may be contained in the stools or urine of the patient, the Council shall provide, during the whole period of infectiousness or such disease, every closet on such premises with pails distinctively marked, and every such pail shall on removal therefrom be kept apart and its contents dealt with and disposed of in such manner as may be necessary to prevent the spread of infection, and every such marked pail shall be exclusively reserved for such cases, and under no circumstances shall any such pail be returned or supplied to any premises not at the time having thereon a person suffering from any such disease as aforesaid.

68. It shall be lawful for the Council to levy on the occupier of every dwelling or public building in respect of the removal of nightsoil in accordance with the preceding regulations a charge at the rate of not exceeding one shilling per pail removal per week ; such charge shall be payable to the Council quarterly in advance, and if the occupier of any dwelling or public building shall fail or neglect to pay such charge in advance, then the Council may, if they deem fit, recover the same from the owner of such dwelling or public building.

69. Nothing in the preceding regulation shall be taken to prevent the Council, by resolution passed at any ordinary meeting of the Council, exempting from the operation of the preceding regulations 61, 62, 63, 65 and 68 any premises in respect of which the Council is satisfied that the area of land surrounding such premises and in the occupation of the occupier of such premises and the distance of such land from other inhabited premises are sufficient in extent, and that the

REGULATIONS RELATING TO LOCATIONS.

(Framed under Section 9, Sub-Section 7, of Act No. 23 of 1897.)

94. 95. All persons wishing to be located on the town lands shall apply to the Secretary of the Municipality, who, after being satisfied that the applicant is a fit and proper person, shall point out a spot on which to erect a hut, for which a land rent of two shillings and sixpence per quarter shall be charged. And any person erecting a hut on the town lands without such permission first had and obtained, shall be liable to a penalty of not exceeding ten pounds, and the hut or building shall revert to and become the property of the Municipal Council, without any compensation, to be dealt with as it may decide.

96. Every hut holder shall be bound to keep his hut in proper order and repair, and the plot of land belonging thereto free from all filth and rubbish, and it shall be the duty of any hut holder, without any request to do so, to give notice to the headman of all strangers and visitors arriving at his hut and remaining there.

97. It shall be the duty of the Secretary of the Municipality to keep a true and correct register of all huts within the location, together with the names of the persons claiming to be occupiers thereof, and shall render yearly statements to the Council of the number of natives residing in the location, the number of huts, the amounts paid for rent, and the amounts in arrear.

98. It shall be lawful for the Health Officer or any person duly authorised by the Council at all reasonable times to enter any hut for the purpose of sanitary inspection, and any occupier who shall not conform to any lawful order of such officer shall be liable to a fine not exceeding two pounds.

100. No person other than holders of "site permits" who have erected dwellings thereon, together with their wives and families, being children under eighteen years of age or unmarried daughters, shall reside in the location, unless they shall first have obtained a "Lodger's Permit," which shall be granted by the Superintendent if he is satisfied that the applicant is a fit and proper person therefor, and that he has found suitable accommodation, for the purposes of finding which a temporary permit for seven days may be granted, and all such permits shall specify the dwelling with the name of the occupier thereof, in which the lodger shall alone reside. - (d) He shall not at any time keep or cause or suffer to be kept in any such shop, room or other place, any dog, cat, pig or other animal, or any fowl, pigeon or other bird, save and except any fowl, pigeon or other bird kept in a proper cage or coop and intended for immediate sale as food of man, or any cage-bird kept in a proper cage: provided that the local authority may, with the previous consent of the Minister and by special resolution, relax or abandon, if necessity require it, any of the above requirements.

Requirements to be conformed to by persons selling or collecting, manufacturing, preparing, keeping, transmitting or exposing articles of food for sale.

171. Every person who shall sell or collect, manufacture, prepare, keep, transmit or expose for sale any article of food shall conform to the following requirements, namely:—

173. Any duly authorised officer of the local authority may prohibit any person in possession or charge of any food which appears to such officer to be diseased, or unsound or unwholesome, injurious or dangerous for human consumption, from selling or disposing of the same for a reasonable time sufficient to admit of such food being inspected and examined by the Health Officer, or a medical practitioner duly authorised thereto by the local authority, and may direct the manner, place and custody in which such food shall be kept pending such inspection and examination. The Health Officer or medical practitioner authorised as aforesaid shall be forthwith informed of such prohibition and shall inspect the food as soon as may be.

The Health Officer or a duly authorised practitioner may, with the owners consent, destroy any unsound or unwholesome food.

174. If on inspection and examination the Health Officer or a medical practitioner duly authorised thereto by the local authority is satisfied that any food intended for sale is diseased, or unsound or unwholesome, injurious or dangerous for human consumption, he may (if the person in possession or charge of such food consent in writing thereto), and irrespective of any penalty which may have been incurred for a contravention of these regulations, order the destruction or rendering unsaleable thereof in such manner and by such persons as he may direct. In the event of such consent being refused such officer or medical practitioner may seize or remove such food or prohibit the person in possession thereof from selling or disposing of the same and may direct the place and custody in which such food shall be kept pending a decision by the Resident Magistrate or Special Justice of the Peace having jurisdiction within the district of the local authority as to the fitness for sale and the disposal of such food.

If consent refused, application to be made to Magistrate.

175. When any food is seized or removed or the person in possession or charge thereof prohibited from selling or disposing of the same as in the last preceding regulation, the Health Officer or medical practitioner so doing shall forthwith make application to the Resident Magistrate or Special Justice of the Peace having jurisdiction within the district of the local authority for an order requiring such food to be destroyed or rendered unsaleable, and shall inform the owner or person in possession or charge of such food of the making of such application for the purpose of his being heard—if he so desire—in opposition thereto.

Magistrate to make enquiry and, if satisfied that food is unsound, or unwholesome, to order its destruction.

Every Resident Magistrate or Special Justice of the Peace to whom application has been made as aforesaid shall, as soon as possible, make enquiry regarding the same, obtaining such evidence as he may deem necessary and if satisfied from the evidence that any food in respect of which such application has been made is diseased or unsound or unwholesome, injurious or dangerous for human consumption, shall, irrespective of any penalty which may be inflicted for a contravention of these regulations, issue such order as he may deem necessary for the purpose of forthwith ensuring that such food is destroyed or rendered unsaleable.

Persons selling prohibited food to incur penalties.

176. Any person prohibited as in the preceding regulations, Nos. 173 and 174 provided, from selling or disposing of any

177. For the purposes of the foregoing regulations, the onus of proof that any food was not intended for sale shall rest with the person in possession or charge thereof, and any food found in any receptacle, shop, room or other place or on any vehicle used for the sale or deposition, keeping, preparation, transmission or exposure for sale of food shall be deemed to be intended for sale until the contrary is proved.

* As per G.46—1909, Second Print. These figures allow for amounts to be derived from Additional Taxation, &c., but were not available when the Statements for September and October were prepared.

(a) Net Revenue after deducting amounts due to "Other Administrations" for Customs Union Duties.

(b) The decrease is due to the earlier transfer of Revenue from the Deposit Account in 1909-10, as compared with 1908-09.

(c) The decrease is due to Sinking Fund Receipts being carried to Revenue in 1908-09 in terms of Act 13 of 1908.

(d) The decrease is due to the earlier transfer to Revenue in 1909-10 of amounts from Loans Acts Accounts.

(e) The increase is due to receipts from the sale of sleepers amounting to £6,212 in April, 1910, whilst in April, 1909, receipts from this source only totalled to £2,700.

(f) The decrease is partly due to the transfer of the Table Bay, Port Elizabeth and East London Harbours to Government, no further payments being made to Revenue in re-imbursement of the Public Debt charges previously recouped by the Harbour Boards, and partly to the discontinuation of the Special Retrenchment Act from 31st March, 1910.

(g) The increase is due to assessments having been made later in 1909-10 than in the previous year.

(h) The receipts are made up as follows:—Traffic Receipts, £305,323; Temporary Deductions from Salaries, £6,177; Refreshment Branch Receipts, £7,373, and Forest Plantation Revenue, £9. The net increase of £48,720 is made up as follows:—Traffic Receipts, £46,973; Refreshment Branch Receipts, £874; Temporary Deductions from Salaries, £865; and Forest Plantation Receipts, £8. The above figures allow for approximate amounts due to "Other Administrations" and include £37,273 paid by "Foreign Administrations" on account of February and March, 1910, traffic, but are exclusive of £10,421 outstanding on account of March, 1910, traffic, and of about £30,000 on account of April, 1910, traffic.

(i) Harbour Receipts have for the first time been carried to Revenue this year.

(j) Includes £36,312 derived from the sale of Colonial Wood Sleepers.

(k) " £31,975 " " "

(l) " £66,584 " " Temporary Deductions from Salaries.

(m) " £71,089 " " "

(n) " £54,522 " " "

(o) " £50,152 " " " of Railway Officials and £72,352 Refreshment Branch Receipts.

[1910.]

Office of the Surveyor-General,
Cape Town, 28th May, 1910.ALLOTMENT OF FARMS COMPRISED IN THE
FIRST RAILWAY LAND GRANT, BECHUANALAND.

UNDER and by virtue of a Resolution adopted by the House of Assembly on the 27th May, 1904, and concurred in by the Legislative Council on the 28th May, 1904, as amended by Resolution dated 9th and 11th September, 1908, it is hereby notified for general information that the undermentioned farms, being portion of the area known as the First Railway Land Grant, Bechuanaland, situate in the Divisions of Vryburg and Kuruman, will from the date of this Notice, be open for selection in the manner and on the terms and conditions hereunder set forth, viz. :—

1. Every application for such land shall be made, in writing, to the Civil Commissioner of the Division in which such lands may be situated, who shall note thereon the date on which such application shall have been received by him, and in due course submit the same to the Land Board appointed for the purpose by Government.

2. The said Land Board shall thereupon allot the land so applied for to the person who, in its opinion, after due enquiry is deemed the most suitable—provided that, in no case shall the Board be bound to select any person deemed undesirable.

As the Board will sit on the 3rd August, 1910, for the above purpose all applications should be sent in before that date. Applications, however, may be submitted after the said date for such of the farms as shall not have been allotted, and these applications will in due course be considered by the Board.

3. Every applicant for land under the provisions of this Notice shall make and append to his application a declaration to the following effect :—

I, [A.B.] (insert occupation), residing at _____ in the District of _____, do solemnly and sincerely declare that I am a British subject of the age of twenty-one years and upwards, that I make this present application for my own exclusive use or benefit, and not directly or indirectly for "the use or benefit of any other person whomsoever, that I am not the owner of any land other than urban property, that I have not made any arrangement or agreement to enable or permit any other person to acquire by purchase or otherwise, the land in respect of which this my application is made."

Signature of Applicant,

[A.B.]

Declared before me at _____ this _____ day of _____ 1910

[C.D.]

Justice of the Peace.

4. Every applicant at the time of making application shall deposit with the Civil Commissioner of the Division in which such land is situate a sum equal to one-twentieth of the value of such land, and of the survey and other expenses connected therewith, and in the event of his neglecting or refusing to take up the land so applied for, if allotted to him, the said sum shall be absolutely forfeited to the Government: Provided that in the case of the ground applied for not being allotted to him, the amount of his deposit shall be returned to him forthwith.

5. Any British subject of full age may be allotted land under the provisions of this Notice, but no person who is the registered owner of any land other than urban property within the Colony, and no person who has at the time of application made any arrangement or agreement to permit any other person to acquire by purchase or otherwise the land so applied for shall be allotted land, and no person shall be capable of receiving more than one allotment under these provisions.

Instead of an applicant being required to make a separate deposit in respect of each farm for which an application is put in by him, he will be permitted to apply for several farms on one deposit provided such deposit amounts to 1/20th of the Purchase price of any of the farms applied for.

In the event of an applicant applying for more than one farm he should name the farms applied for in accordance with the order of his preference for them.

6. The Minister shall issue to the successful applicant a licence to hold the land applied for on the following terms and conditions :

- The licence shall be for five years, reckoned from the next first July, or first January following the date of licence, but occupation may commence immediately the licence deed is issued.
- The yearly payment in respect of such licence shall be equal to one-twentieth the price fixed for the land so held, together with one-twentieth of the survey and other expenses on such land, and shall be paid in advance.
- The deposit paid at the time of application shall be in discharge of the amount due on the next first day of January or July, as the case may be.
- The person to whom such licence is issued shall, within six months of the issue of his licence, personally occupy the land allotted to him, and shall continue so to occupy such land except as herein after provided, for the term of five years, or until he shall obtain a title to such land.
- No substitution whatever will be allowed during the period of the licence.

7. No land held under the provisions of this Notice shall be transferable during the currency of the licence mentioned in the clause next preceding, except with the previous consent of the Government.

8. In the event of any failure during the currency of the licence to perform the condition of occupation the Minister may declare the licence absolutely forfeited and the land in respect of which the licence is issued shall revert to Government: Provided that if it is proved to the satisfaction of the Minister that the failure to occupy was caused by drought, or some other cause deemed sufficient by the Minister, he may excuse such failure, but such excuse shall not be given for a period of more than twelve months unless such cause subsists for a longer period.

9. At the expiration of the five years for which any licence is granted, and if the Minister is satisfied that the conditions therein contained have been duly fulfilled, he shall cause to be issued to the licensee a title deed to the land held and occupied by him on quitrent tenure at an annual quitrent equal to the yearly licence fee, which quitrent shall cease to be payable when twenty instalments (20) in all, equivalent to the purchase price of the land, have been paid: Provided that if after two years' occupation the licensee can prove to the satisfaction of the Minister, who shall require certificates to that effect that he has made permanent improvements on the land, equal at least to the value of such land, the Minister may cause to be issued to him a title subject to the payment of so many annual instalments still unpaid as will make up the whole value of the land, together with the survey and other expenses, which shall be secured by mortgage in favour of Government.

10. The title deed will be subject to the following general conditions, and to such special conditions as may be considered expedient, viz. :

- All roads and thoroughfares being or existing on the land, whether described in the diagram or not, shall remain free and uninterrupted; unless the same be closed or altered by competent authority.
- If at any time it should appear to the Governor upon petition of any adjacent or neighbouring proprietor that such adjacent or neighbouring proprietor requires a way or road of necessity to or from the land of such adjacent or neighbouring proprietor, the owner of land so granted; upon which such road is required, shall be bound to grant such way or road of necessity, and to point out the direction and width thereof; Provided that in case of a dispute or difference regarding such road, or its sufficiency, the direction and width of the road shall be decided upon by the Divisional Council of the Division in which the land is situated: Provided further that the said owner shall not be bound to allow such road or thoroughfare across land which shall at the time be in a state of cultivation or improvement, and that compensation for the right of way and any damage done shall be paid for by the person or persons for whose benefit and upon whose application the said road is made according to determination by arbitration.
- The Governor shall at all times have the right to make roads, railways, dams, aqueducts, drains, and to conduct telegraphs over the land for the benefit of the public, and to take materials for these purposes, also to establish convenient out-

spans for the use of travellers, on payment to the proprietors of such sum of money as compensation as may be determined by arbitration: Provided that the arbitrators may set off against the loss or damage caused to the proprietor, the benefit, instant or prospective, which he shall or may derive in consequence of the construction of any of the said works.

- (d) The Governor shall at all times have the right of resuming the whole or a portion of the land hereby granted, if required for public purposes, on payment to the proprietor of such sum of money in compensation as may be mutually agreed upon by the parties concerned, or, failing such agreement, as may be determined by arbitration.
- (e) All rights to gold, silver, and precious stones found or discovered at any time on or in the land so granted, shall be reserved to the Government conjointly with the Rhodesia Railways, Ltd., together with a right of ingress to and egress from any mines or works undertaken for mining or prospecting purposes by any person or persons authorised by the Government. The further right shall be reserved to the Government acting with the said Company to resume proprietorship of any portion of such lands and of the water supply thereof as may be required for the convenient working of mines or works for gold, silver, or precious stones, on payment of such sums of money in compensation as may be mutually agreed upon by the parties concerned, or failing such agreement, as may be determined by arbitration.

11. If any instalment shall not be paid within three months of the date on which it is due and payable an additional sum equal to one-fourth part thereof, by way of penalty, shall be added thereto, and shall, together with the instalment overdue, be recoverable at the suit of the Government in any competent Court.

These farms will be allotted subject to the condition that the Licensee shall not be allowed during the continuance of his licence to cut down or destroy any forest timber, or poles growing upon the land, except as shall be reasonably necessary for domestic purposes, and for the beneficial occupation of the land, but not for sale.

The plans and form of Licence Deed may be seen at the Offices of the Civil Commissioners at Vryburg and Kuruman, respectively, and at the Surveyor-General's Office, Cape Town.

All enquiries should be addressed to the Surveyor-General and to the Civil Commissioners of Vryburg and Kuruman.

The Government does not guarantee that the extent alleged to be contained in the farms "Hartland" and "Cullendale" are correct, and will not hold itself liable for any shortage which may eventually be found to exist, neither does it guarantee that the corner beacon which were placed in the original compass survey are still standing nor undertake to indicate their positions.
